

Discussion with Laura

type of report → not 2 different views, split vote

typed by everybody? if analytical enough → i.e. editorial on nature of problems

where we are → no real problem

final objective → spell out implications

agree on the definition of ones

↓
could imply some agreements

on the other hand → steps by steps
what we agree

4 types

a) monetary framework, foreign banks

b) size of PSBR

same differences acceptable,

growth effects, problems of
hyper

political considerations

c) same with agreement of figures,
global level of taxation,
expenditure

with reasonable deficit
can last been shown

part of
cost

d) structure of taxation

and cannot be discarded
into phase 2

concrete steps

the
part
prop

hey -
part
coming late
about
it away
review the
managing

small increments in several directions

less frequent
to n. adaptation

initial route

at a certain point a grab jump!

↓
close to the final phase
at that time what
needs to be done
in advance area!

↙
who makes
numbers policy
to whom do
the reports
accountable?

prepare
the
form
prepare framework
back
freely

cross the Rubicon

nothing in
between

- historical gradualism
yes
- Anomalous production
no
