II.2.4) Description of the procurement:

The objective of the contract is to have a managed service provider (MSP) who takes over all activities and responsibilities for the operation, maintenance and support (this includes manufacturer support of all different hardware and software components) of the services and all the components in the following IT areas (building blocks):

1. service desk (first level support);
2. IT support (second level support);
3. end user equipment (hardware);
4. end user computing (software);
5. system operations;
6. data center IT infrastructure.

The contract includes services to install, operate, upgrade, support and maintain the end user computing and the data centre IT infrastructure as a fully managed service. The managed service will be based on agreed service level agreements. The ECB will purchase the components, software and hardware, that comprise the end user computing (except for the Citrix/VDI services) and the data centre IT infrastructure. All the different hardware and software components shall be located in ECB premises and integrated into the ECB IT environment. The services in the scope of this contract are currently provided by the IT department of the ECB for around 4900 end users in several buildings located in the city of Frankfurt-on-Main. It also includes the

operation of approximately 536 physical servers, 1 564 virtual servers and 88 business and technical services in 2 data centres. The contract shall be in effect for an initial period of 72 months from the day of the signature (including a transition phase of approximately 6 months). The contract can be extended for up to 2 additional years, thus leading to a maximum contract duration of 8 years.
