II.2.4) **Description of the procurement:**

The ECB is looking for a Contractor to organize - with expert advice, professional competence and qualification - the maintenance of the ECB Green Area at the ECB's Main Building in Frankfurt am Main. The entire site area is about approx. 120 000 m² (3 500 m² crushed stone lawns, 42 000 m² lawns, 20 000 m² meadows, 500 m² expanses of water and 1 600 m² daffodils and anemones (around 240,000 pieces). The open spaces of the ECB's main building include around 25 different types of trees and more than 750 trees in total. The yearly tree inspection will be executed by an independent expert. Based on the expertise the contractor shall implement the tree care services as described.

Another important task shall be the maintenance and steering of the irrigation system. To this extent, the contractor shall have special equipment and experience. The irrigation system will be handed over by a technical company. With the handover of the irrigation system the contractor shall confirm full functioning of the system.

The maintenance works, such as lawn mowing, fertilization etc. on the grounds will be handled according to a detailed care plan which will be created and implemented by the contractor, as agreed with the ECB at the start of the contract. All works shall be announced by E-mail in advance and shall be invoiced accordingly.

Since it is not possible to store gardening waste, waste containers or technical equipment on the ground of the ECB, the contractor shall arrange the services accordingly.

The ECB provides plants for certain offices as well as for public areas, such as platforms or catering / conference areas. Therefore another important element of the service provision shall be the in-house plant care (watering, fertilization, repotting etc.) as well as purchasing of new plants and matching planters. Additionally, the ECB requires prices for Christmas trees in various sizes as well as for an offer for rental plants for events.

In some cases, staff members' plants are taken care of by the gardeners as well. To this extent, the ECB requires the contractor to provide such services as an option. This service — however — shall be arranged between the gardening company and the staff members directly on an individual basis, the ECB shall not cover these costs.
