# The Statement of Commitment is the main envisaged module for demonstrating commitment to the Code

- Brief and high level in style
- Focus on commitment to conduct activities consistent with the Code
- To be used by all market participants
  - including central banks
  - for FXC membership
- Will be made available as an Annex to the Code
- Accompanying explanatory note

[Name of institution] (“Institution”) has reviewed the content of the FX Global Code (“Code”) and acknowledges that the Code represents a set of principles generally recognised as good practice in the wholesale foreign exchange market (“FX Market”). The Institution confirms that it acts as a Market Participant as defined by the Code, and is committed to conducting its FX Market activities (“Activities”) in a manner consistent with the principles of the Code. To this end, the Institution has taken appropriate steps, based on the size and complexity of its Activities, and the nature of its engagement in the FX Market, to align its Activities with the principles of the Code.

## **Demonstrating adherence: posting the Statement:**

- **own website: difficulty to track**
  
- **public register:**
  - FX Committees
  - Infrastructure providers and platforms
  - Industry Associations, Forums and Bodies
  
- **Working on an aggregator of Public Registers**

**Thank you  
for your attention**
