

# Corporate Actions Adaptation Plan

## Euronext Securities Milan

Activity	Corporate Actions
<b>Plan submitted by</b>	Euronext Securities Milan
<b>NSG</b>	Italy
<b>Date</b>	October 2022

### Background

The Adaptation Plan provides information on the changes which will be implemented to meet the SCoRE Standards for Corporate Actions which form part of the Single Collateral Management Rulebook for Europe (SCoRE). Full details of the Corporate Actions Standards can be found on the [ECB website](#).

The document is structured as follows: Section 1 (Cover Letter) provides a high-level summary of the changes in order to implement the SCoRE Standards. Section 2 (Adaptation Plan Table) then provides a more detailed overview per Standard covering a feasibility assessment and the implementation milestones.

### 1 Cover Letter

Following the high level analysis and the initial user communication in 2020/2021, Euronext Securities Milan (ES-MIL) has completed its detailed requirements definition and analysis phase, has issued the detailed external communication in September 2022, and is at an advanced stage of the implementation phase.

For the time being, no legal barriers or operational impediments have been identified and – with reference to debt securities – we are committed to meet the go-live date of the proposed plan, albeit with a remodulation of intermediate milestones, following re-planning of the project.

With reference to non-debt securities, it should be noted that the related Milestones Table included in the document, aiming at January 2026 (at the latest) for implementation, is still in its preliminary phase and subject to further review and refinement in the next months. Also, implementation of Standard 5 has been postponed according to this same timeline, in consideration of the reduced priority in the current macroeconomic scenario.

It has to be highlighted that we cannot exclude that additional critical points could emerge from the full involvement of the community.

In such a case ES-MIL will promptly inform the NSG with the aim to collaborate and find appropriate measures, with the final objective to meet the launching date.

According to the detailed analysis performed, ES-MIL has already implemented 3 of the CA standards; adaptations are required on 11 of the remaining ones while one of the standards is not applicable,

It should be noted that – as already shared with the National community – ISO20022 messages as per standard 15 will be made available to participants only in January 2026, together with the full harmonisation for all asset classes.

	unit <sup>1</sup> . The Minimum Settlement Unit (MSU) <sup>2</sup> of the security shall determine whether the nearest full unit is a whole number (for example 1) or another number <sup>3</sup> (for example 1.1).				
<b>Rounding rule no. 3</b>	For the calculation of cash payment amounts or securities movement amounts relating to a specific securities account, the ratio applicable to the entire issue should be applied to the total holding in the parent ISIN on the securities account. (There should be no intermediate step whereby a ratio per 1,000 nominal is calculated, and then applied).	Implemented			
<b>Rounding rule no. 4</b>	The ratio specified by the Issuer CSD in the event notification should be passed on in its entirety in the event notification sent by all Account Servicers and Custodians in the custody chain. (There should be no rounding up, or rounding down, or truncation, of the ratio).	Implemented			

<sup>1</sup> For equities, the rounding-down applies on (I)CSD level for the total position held for one (I)CSD participant and not per share. Accordingly, an entitlement to receive 9.33 shares would be rounded down to 9 i.e. the nearest whole number.

<sup>2</sup> The MSU should be determined in accordance with the guidance contained in question 4.2 of the T2S Corporate Actions Standards [FAQ](#).

Payment amounts are always calculated on the end-of-day positions on the record date. If the payment date falls on a non-business day in the country of the currency in which the payment is due, the payment must be made on the next business day. If the next business day would fall in the following month, and the payment needs to be made in the same month (with the payment day being moved to precede the original payment date) then the Modified Following (Adjusted) Business Day Convention must be used.

Adaptation Required

In order to comply with this rule, one of the following business day conventions should be used at the time of issuance of the security:

<b>Business Day Convention</b>	<b>Calculation Period</b>	<b>Post-Trade Process</b>
<b>Following</b>	Adjusted	Pay the next business day
<b>Following</b>	Unadjusted	Pay the next business day
<b>Modified Following</b>	Adjusted	Pay the previous business day

Adaption Required

For existing securities, Euronext Securities Milan will have to adapt its current model in order to anticipate the RD to PD-1. For new issuances as from November 2023, there is no adaptation required as Euronext Securities Milan expects that T&Cs will no longer include references to unadjusted conventions

<i>For European currencies, the cash proceeds of a corporate action should be distributed by Issuers CSDs as early as possible, but no later than 12:00 noon on the payment date (Issuer CSD time).</i>	Implemented								
<i>For non-European currencies, the cash proceeds of a corporate action should be distributed by Issuers CSDs as early as possible, but no later than 16:30 on the payment date (Issuer CSD time).</i>	Implemented								
<i>If the corporate action event would result in both cash and security movements, then the transactions for the debit (or credit) of securities and credit (or debit) of cash proceeds must be executed simultaneously.</i>	Adaptation Required					Refer to the CAEV list present in the Standard 3			
<i>Cash proceeds should be made available<sup>4</sup> by the issuer CSD as early as possible on the payment date using functionalities such as the night-time settlement (NTS) where available, allowing for settlement as soon as technically possible<sup>5</sup> at the opening of the securities settlement system.</i>	Adaptation Required					Refer to the CAEV list present in the Standard 3			
<i>Government debt payments are expected to be paid in the overnight (where NTS is available)/at the latest at the start of the business day.</i>	Implemented								

<sup>4</sup> The funds should not be subject to any limitations once made available.

<sup>5</sup> It is expected that payments will be made by 09:30 (Issuer CSD time) to facilitate collateral management. AMI-SeCo will carry out regular fact-finding exercises to monitor actual CA payment times. Payments in Eastern timezone currencies (e.g. Japanese Yen) are expected to be processed in the nighttime settlement.

<p><b>Notification of processing status</b></p> <p><i>If an issuer, issuer agent, or Issuer CSD cannot process a Corporate Action on the previously announced Payment Date, all Account Servicers must For all mandatory with options and voluntary CA events involving a debit of securities, all intermediaries must ensure that the elected security position is subject to soft blocking if the election is received ahead of the deadline. Intermediaries will show the elected quantity as an instructed quantity therefore 'unavailable' for settlement in their reporting.

Adaptation Required

Upon receipt of the election, Issuer CSDs will also ensure the elected quantity is separated accounting wise. The elected quantity should remain separated accounting wise from the time the CA instruction is accepted until (i) the CA event is executed (when the debit takes place) or (ii) until an instruction is cancelled (for revocable instructions).

Adaptation Required

For mandatory with options CA events, Issuer CSDs should ensure settlement does not occur after the Market Deadline.

Not applicable

Euronext Securities Milan, in its role as an Issuer CSD, does not allow settlement of underlying securities after market deadline (PD)

Account servicers should include an indicator in the CA notification message to identify that a security position will be (soft) blocked.

Adaptation Required

A holder of a security may be entitled to receive a fee following the announcement of a meeting fee. This fee may be paid to all holders of the security or alternatively only to certain holders of the security fulfilling certain criteria. The different constellation of options which may lead to the payment of a meeting fee are outlined below:

A bond/shareholder has to instruct (a certain option until a certain deadline) in order to receive the payment.

A bond/shareholder has to instruct early (a certain option until a certain deadline) in order to obtain an early incentive premium. The bond/shareholder then receives the rate announced in the early incentive premium field.

All bond/shareholders receive the fee without having to participate/instruct at the meeting – the rule is as follows: everyone who has a holding as of a certain date (record date) will receive the fee.

In addition to the above use cases, the event may also include a condition that resolutions have to pass at the meeting in order to receive a fee.

Not Applicable

ES-MIL does not manage meeting instructions (see std. 1G)

**Reversal of CA movements**

**A pre-advice message must be issued in advance of any reversal of a CA. In case of a cash reversal, the pre-advice must be sent sufficiently in advance of the reversal so that recipients have adequate time for cash management.**

The Account Servicer must send a reversal announcement before the reversal is processed to allow the recipient of the CA payment sufficient time to pre-fund the reversal of the CA proceeds before the reversal takes place.

Adaptation Required

Refer to the CAEV list present in the Standard 3.

14	Processing of foreign currency CA payments	To process payments in currencies not eligible in the settlement system, the CSD must instruct the cash correspondent to debit the account of the paying agent and to pay the funds to an account of the security holder.
