

SCoREBOARD

Corporate Actions – H1 2022

Swedish NSG

Background

Since publication of the [Collateral Management Harmonisation Report](#) in December 2017, the Advisory Group on Market Infrastructures for Securities and Collateral (AMI-SeCo) has made a number of significant breakthroughs in its ambition to create a **Single Collateral Management Rulebook for Europe (SCoRE)**.

What is SCoRE?

SCoRE defines common rules for managing collateral in Europe. These rules will replace the fragmented legacy standards, structural constraints and complex and diverse market practices that exist across Europe today. Implementation of SCoRE should remove operational impediments to the availability, usage and mobility of collateral. Market participants in AMI-SeCo have committed to implementing the SCoRE Rulebook, with the first set of rules due to be implemented by November 2023. Their implementation efforts are regularly monitored by AMI-SeCo which facilitates an active dialogue with market participants on issues related to the clearing and settlement of securities and to collateral management.

National stakeholder groups (NSGs) are coordination forums to support the implementation of the Single Collateral Management Rulebook for Europe.

The Single Collateral Management Rulebook for Europe (SCoRE) contains 15 Standards related to the processing of corporate actions (published as the [SCoRE Standards for Corporate Actions](#)). Implementation progress is monitored twice per year.

Introduction

This summary report presents the results of the H1 2022 monitoring exercise conducted by the Swedish NSG with the involvement among the following stakeholders:

- 1 CSD – Euroclear Sweden
- 1 Custodian

2 entities are monitored in the Swedish market

The report focuses on the milestones to be met by the time the survey closed. In this monitoring exercise, participants were expected to have achieved all the milestones up to Milestone 6 inclusive as described in section 3 below.

Section 1 presents the key takeaways per entity type i.e. CSD, TPA, Custodian etc. Section 2 depicts for each entity type their compliance status with the standards. Section 3 focuses on the progress against the individual milestones and Section 4 provides concluding remarks.

1 Key takeaways

The Swedish market has developed a post-trade harmonisation roadmap

The Riksbank convened during 2020 and 2021 a “Coordination forum for Swedish Post-Trade Harmonisation” which had the task of presenting a Swedish post-trade harmonisation roadmap. The forum has, in its assessment of components for that roadmap, included the SCoRE standards among other standards and topics. The forum presented its roadmap in February 2021.

As the market’s harmonisation plan is now established, this provides conditions for addressing the SCoRE standards in the Swedish context with more certainty and to provide relevant documentation going forward.

Summary of the monitoring exercise

	 Response Rate	 Implementation status of the standards	Are all milestones 1 to 6 inclusive achieved?	Will the last milestone 13 be implemented on time (i.e. by 20 November 2023 ?)
Custodians	100%	Implemented 84.6% Analysis started 7.69% Implementation started 1.28% Analysis not started 6.41%	50%	100%
CSD - Euroclear Sweden	100%	Implemented 33.3% Analysis started 0% Implementation started 0% Analysis not started 66.6%	No	01/26

Euroclear Sweden has made progress in its implementation of SCoRE

CSD – Euroclear Sweden

Euroclear Sweden participated H2 2021 monitoring exercise and it is noted that its level of compliance is progressing well. It has reported full implementation of sixteen

Corporate Action Standards. However, it is behind schedule in respect to ten standards/sub-standards. The remaining nine standards/sub-standards are not relevant to the entity.

Custodians

One custodian participated in the H2 2021 monitoring exercise in the Swedish market and exhibited a high-level of compliance with the applicable standards. In addition, efforts to comply with the remaining standards are already underway with implementation underway in respect of Standards 1A, 1D, 1G and 15. The custodian participating in this monitoring is compliant with more than relevant 50 % of the standards.

Custodian engagement is progressing well.

2 Compliance with the standards

This section provides an overview of the current status of compliance with the corporate actions standards. CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in figure 2 below. Custodians and Issuers are too many to represent individually. Thus the replies of custodians and issuers from the AMI-SeCo community participating in the monitoring are presented on an aggregated basis per market and assigned a percentage representing their compliance status.

Figure 2

Standards implementation status as defined in the AMI-SeCo framework document

- The Standard has been implemented
- Implementation of the Standard is on schedule (based on the agreed milestones)
- Implementation is behind schedule (based on the agreed milestones)
- Implementation has not started

Notes:

- For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in figure 2 above.
- TPAs are using custody services provided by CSDs or Custodians in order to disseminate CA information to Collateral Givers and Collateral Takers. Monitoring of TPAs thus focuses on the implementation of triparty specific workflows described in Standard 1. For custodians, the percentage of custodians which have implemented standards / standards being under development and implementation.

- Issuers were asked to confirm awareness of their obligation to provide all relevant information to the Issuer CSD (on a Yes/No basis). The % reflects the number of issuers who responded yes to the survey
- Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.

3 Progress towards the milestones

This section tracks market stakeholders progress in implementing the Standards against the 13 set milestones identified by AMI-SeCo.

The milestones facilitate consistent implementation across markets (given the long-term efforts that are needed) and avoids issues remaining undetected until the deadline of 20 November 2023 to achieve compliance and implementation of the standards.

Table 2

The current H1 2022 monitoring exercise focuses on milestones 1 to 6 given that Milestone 6 (with a deadline of 1 January 2022) was meant to have been achieved by the time the survey closed.

In each survey round, all the entities are asked to confirm (on a yes/no basis) whether the milestones will be met by the set milestones dates. If it is not the case, they are also asked the expected date for when the milestone will be reached.

For the milestones which had to be achieved by the time the survey closed: the blue colour code is assigned to those milestones that have been successfully achieved. Milestones that will only be achieved later than their set deadline are assigned a yellow status with indication of the likely date of achievement.

For the milestones that are only due to be achieved after the current reporting cycle: the green colour code indicates that the entity anticipates achieving that future milestone on time. A yellow status indicates that the milestone is foreseen to be met later than the set milestone date. In this case, the date of achievement anticipated is also indicated in the table.

Table 3

Entities' expectation of achieving the milestones at the set dates

4 Concluding remarks

Implementation of the milestones for the Swedish market are not yet fully available. This obviously puts at risk that the standards will be implemented by November 2023.
