## Corporate Actions – H2 2021

### Dutch NSG

The Single Collateral Management Rulebook for Europe (SCoRE) contains 15 Standards related to the processing of corporate actions (published as the [Score Standards for Corporate Actions](#)). Implementation progress is monitored twice per year. This summary report presents the results of the H2 2021 monitoring exercise conducted by the Dutch NSG with the involvement of the following stakeholders:

- 1 CSD
- 6 Custodians
- 1 Issuer

8 entities are monitored in the Dutch market.

The SCoRE Overview provides a high-level summary of the H2 2021 monitoring exercise.

 <small>Single Collateral Management Rulebook for Europe</small>	 <b>Response Rate</b>	 <b>Implementation Status</b>	 <b>Milestone achieved?</b>	 <b>Implemented on Time?</b>
Custodians	67%	Implemented 53.5% Analysis started 19.3% Implementation started 8.37%	33%	50%
Issuers	0%	Yes 83.3% No 16.6%	n/a	n/a
CSD - Euroclear Nederland	100%	Implemented 33.4% Analysis started 15.2% Implementation started 39.8%	Yes	Yes

Note: Implemented on Time reflects the entity's expected ability to achieve the final milestone on time.

This NSG summary report is structured as follows: The Executive Summary provides an overview of the responses received per participating entity type i.e. CSD, Issuer or Custodian. Section 1 presents the compliance status of each entity type. Section 2 provides an overview of the progress against the individual milestones. Section 3 provides a more detailed overview of the implementation status per standard for each entity type.

## Executive Summary

Implementation of the Corporate Action Standards in the Dutch market is fully on track.

The large majority of the entities participating in the AMI-SeCo NL NSG responded to the survey. This section presents the key findings of the survey for each entity type.

### CSD – Euroclear Nederland (ENL)

ENL has started with the implementation of the 15 CA Standards. There are no issues of concern which need to be highlighted (red/yellow). The milestones are being met ultimately resulting in full implementation of the standards in time for the implementation date of November 2023.

### Custodians

Custodians are aware of the SCoRE standards and are on time with analysing the consequences for their own IT systems.

For custodians the outcome of the survey indicates that standards have either already been implemented, or that implementation is on track i.e. at a minimum that analysis has already started or that implementation has started per standard. Overall the results of the survey show that the milestones are being met. Custodians are aware of the AMI-SeCo standards and are on time with analysing the consequences for their own IT systems. An area that needs attention is ISO20022 messaging.

### Issuers

Issuers confirm awareness of their obligation to provide all relevant information to the Issuer CSD.

Issuers were asked to confirm awareness of their obligation to provide all relevant information to the Issuer CSD. The % reflects the number of Issuers who responded yes to the survey.

On 12 standards/substandards there is a 100% compliance.

The graph in section 3 shows that according to the standards on corporate actions there are twelve substandards that imply the necessity to fulfil an obligation. The issuer has already implemented 12 of these.

Overall, issuers are aware of their obligations under the AMI-SeCo standards in the Dutch market.

### NCB

The Dutch Central Bank is on track to adopt the SCoRE Standards in November 2023

The Dutch Central Bank is on track to implement the SCoRE Standards for Corporate Actions for its collateral management activities by November 2023.

## SCoREBOARD

This section presents the overall compliance status in the market. CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in Box 1<sup>1</sup>. Given the possible commercial implications custodians and issuers are monitored on an aggregated basis and assigned a percentage compliance status.

### Box 1

#### SCoREBOARD – Implementation Phase

---

- The Standard has been implemented
- Implementation of the Standard is on schedule (based on the agreed milestones)
- Implementation is behind schedule (based on the agreed milestones)
- Implementation has not started

---

For custodians and issuers, progress is monitored and reported as a percentage; for example the % of custodians in a given market who have started internal adaptation of IT systems.

Notes:

- For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in Box 1 above.
- TPAs are using custody services provided by CSDs or Custodians in order to disseminate CA information to Collateral Givers and Collateral Takers. Monitoring of TPAs thus focuses on the implementation of triparty specific workflows described in Standard 1.
- For custodians the % indicates that the standard has either already been implemented, or that implementation is on track i.e. at a minimum that analysis has already started or that implementation has started per Standard.
- Issuers were asked to confirm awareness of their obligation to provide all relevant information to the Issuer CSD (on a Yes/No basis). The % reflects the number of issuers who responded yes to the survey
- Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.
- A plausibility check was performed by the CMH-TF Secretariat.

Milestones expected to be achieved in the current reporting period are highlighted in blue in the header of Table B below. The blue colour-code is then assigned to those milestones which have been successfully achieved to date for each respective entity. Milestones which will only be achieved later are assigned a yellow status, while milestones which will only be achieved with significant delays / where work has not yet commenced are marked in red.

For the remaining milestones (i.e. milestones due to be achieved only after the current reporting cycle) the colour-code indicates an entity's expected ability to achieve a future milestone on time. The expected date of achievement is also indicated in the table if it is different to the milestone date defined by AMI-SeCo.

**Table B**
