

Corporate Actions Adaptation Plan

Euroclear Belgium

Activity	Corporate Actions
Plan submitted by	Euroclear Belgium
NSG	Belgium
Date	June 2021

Background

The Adaptation Plan provides information on the changes which will be implemented to meet the AMI-SeCo Standards for Corporate Actions which form part of the Single Collateral Management Rulebook for Europe (SCoRE). Full details of the Corporate Actions Standards can be found on the [ECB website](#).

The document is structured as follows: Section 1 (Cover Letter) provides a high-level summary of the changes in order to implement the AMI-SeCo Standards. Section 2 (Adaptation Plan Table) then provides a more detailed overview per Standard covering a feasibility assessment and the implementation milestones.

1 Cover Letter

In order to better comply with international standards, the ESES CSDs (Euroclear France, Euroclear Belgium and Euroclear Nederland) have started several initiatives to gradually migrate corporate actions services to a new platform. Part of those projects have already been delivered. The remaining phases are planned in the coming years. Through IT developments and business process enhancements, the ESES CSDs have improved compliance with existing standards (CAJWG, CASG, SMPG) and will ensure compliance with future standards (CMH-TF).

The main initiatives improving standards compliance are detailed below:

(1) The "CSE6" (custody service enhancements, stream 6) project was delivered in 2018. The main objective was to ensure that the processing of elective events was compliant with CAJWG standards. Since the implementation of this project, the ESES CSDs already comply with most the CMH-TF standards relating to elective events.

(2) The ESES CSDs have implemented their SRD 2 project since November 2020 to comply with the Directive. Meetings on fixed income instruments are not

announced neither processed via the ESES CSDs as per current market practice.

(3) Another initiative called ""Asset servicing modernisation"" was delivered in March 2021. This project has migrated mandatory events on the new asset servicing platform, which improve compliance of mandatory events with standards.

(4) Finally, a specific project will be planned to achieve compliance with remaining CMH-TF standards. The plan is to deliver this project by November 2023 (with community test in November 2022). As most of the standards will already be met with the projects described above, the main remaining item will be the implementation of the ISO20022 messaging for corporate actions.

The implementation of those projects will gradually ensure compliance with the CMH-TF standards by Nov 2023 as requested by the AMI-SeCo. Some exceptions could remain mainly on event types not relevant to the ESES markets. An assessment of the likelihood to have such event types will be performed and they will be brought within the scope when relevant.

Market associations (AFTI, DACSI, Febelfin and ESES User Forum) are involved in the definition of the requirements of most of those initiatives. The CSD participants are therefore already aware of the upcoming changes and can manage readiness on their side. Communications to clients and detailed specifications of each projects (including impact on messaging, described in MyStandards) will be shared in due course with clients.

	Rounding rule no. 1	For cash payments, the cash amount to be paid is to be rounded down to the number of decimals permissible in the payment currency (i.e. to 2 decimals in case of EUR payments).Accordingly, and as an example, a cash amount of EUR 2.556 should be rounded down to EUR 2.55	Implemented						
	Rounding rule no. 2	For securities movements, the securities amount should be rounded down to the nearest full unit.	Implemented						
	Rounding rule no. 3	For the calculation of cash payment amounts or securities movement amounts relating to a specific securities account, the ratio applicable to the entire issue should be applied to the total holding in the parent ISIN on the securities account. (There should be no intermediate step whereby a ratio per 1,000 nominal is calculated, and then applied).	Implemented						
Additional Information	Rounding rule no. 4	The ratio specified by the Issuer CSD in the event notification should be passed on in its entirety in the event notification sent by all Account Servicers and Custodians in the custody chain. (There should be no rounding up, or rounding down, or truncation, of the ratio).	Implemented	For securities held as investor CSD, depending on the setup (direct link or via intermediary), we will relay the information provided by the entity where securities are held. 		<i>Securities with a fixed negative interest rate, or with a floating interest rate, may result in a payment from the Investor to the Issuer of the security. The Standard is applicable to CSDs acting in their role as both Issuer CSD and Investor CSD. If a CSD accepts only securities with a positive interest rate, or with a floating rate coupon with a floor of zero or above (fixed in the terms and conditions of the security), so that negative cash payments do not occur, then the CSD is deemed to comply with this standard.</i>
