Triparty Collateral Management – H1 2022

Belgian NSG

Background

Since publication of the [Collateral Management Harmonisation Report](#) in December 2017, the Advisory Group on Market Infrastructures for Securities and Collateral (AMI-SeCo) has made a number of significant breakthroughs in its ambition to create a **Single Collateral Management Rulebook for Europe (SCoRE)**.

What is SCoRE?

SCoRE defines common rules for managing collateral in Europe. These rules will replace the fragmented legacy standards, structural constraints and complex and diverse market practices that exist across Europe today. Implementation of SCoRE should remove operational impediments to the availability, usage and mobility of collateral. Market participants in AMI-SeCo have committed to implementing the SCoRE Rulebook, with the first set of rules due to be implemented by November 2023. Their implementation efforts are regularly monitored by AMI-SeCo which facilitates an active dialogue with market participants on issues related to the clearing and settlement of securities and to collateral management.

National stakeholder groups (NSGs) are coordination forums to support the implementation of the Single Collateral Management Rulebook for Europe. They have been established in the markets covered by the AMI-SeCo in order to support the implementation of the Single Collateral Management Rulebook for Europe (SCoRE).

The Single Collateral Management Rulebook for Europe (SCoRE) contains 17 Standards related to triparty collateral management (published as the [SCoRE Standards for Triparty Collateral Management](#)). Implementation progress is monitored twice per year.

Introduction

This summary report presents the results of the H1 2022 monitoring exercise conducted by the Belgian NSG with the involvement among the following stakeholders:

There are two TPAs monitored in the Belgian market

- 2 TPAs – BNY Mellon and Euroclear Bank

This report focuses on the milestones to be met by the time the survey was closed. In this monitoring exercise, participants were expected to have achieved all the milestones up to Milestone 6 inclusive as described in section 3 below.

Section 1 presents the key takeaway. Section 2 depicts the entity compliance status with the standards. Section 3 provides an overview of the progress against the individual milestones and section 4 focuses on concluding remarks.

1 Key takeaways

Implementation of the Triparty Collateral Management Standards in the Belgian market is partly on track

Implementation of the Triparty Collateral Management Standards in the Belgian market is partly on track. One of the two TPAs, namely BNY Mellon, is on track to adopt the Single Triparty Model in accordance with the implementation deadline agreed by AMI-SeCo. As of November 2023, Euroclear Bank will no longer meet the criteria to remain a Eurosystem eligible TPA. This has an impact on the relevance of and compliance with some of the SCoRE Standards.

All reporting entities active in the Belgian market responded to the survey. This section presents the key findings of the survey for each entity type.

TPA - BNY Mellon	100%	Implemented 7.69% Analysis started 61.5% Implementation started 26.9% Analysis not started 3.84%	No	Yes
TPA - Euroclear Bank	100%	Implemented 11.4% Analysis started 68.5% Implementation started 0% Analysis not started 20%	No	0 / 25

TPA – BNY Mellon

BNY Mellon implementation is partly on schedule

14 Standards related to triparty collateral management are applicable to BNY Mellon. 2 of these Standards have already been implemented (blue). For 7 Standards implementation has started (green). There are currently 5 Standards still under analysis. Since analysis should have been finalised by July 2021, its implementation is deemed to be behind schedule (yellow status).

BNY Mellon confirmed that it has met milestones 1 and 2. Since the analysis phase is taking more time than foreseen, milestone 3 has not been met and delays can be expected in several future milestones. Nevertheless, BNY Mellon will implement all applicable Standards by November 2023.

TPA – Euroclear Bank

Euroclear Bank implementation is partly on schedule

All Standards related to triparty collateral management are applicable to Euroclear Bank, in its capacity as a Eurosystem eligible TPA. 4 Standards have already been implemented (blue). Analysis of the ISO 20022 messaging Standard and reference data Standard has started (yellow).

Milestones 1 and 5 have been met. However, since the implementation of multiple standards is still ongoing, milestone 6 has not been met. Furthermore, Euroclear Bank should clarify all future milestones, following its announcement to implement the standards after joining T2S.

CCPs

CCPs are monitored in their role as users of Triparty Collateral Management Service

There are no CCPs that are active in the Belgian market in scope of this monitoring exercise.

NCB

NBB will adopt the Single Triparty Model in November 2023

The National Bank of Belgium is on track to implement the SCoRE Standards for Triparty Collateral Management by November 2023, provided that the ECMS project remains on track.

2 Compliance level with the standards

This section provides an overview of the current status of compliance with triparty collateral management standards. In the NSG reports, CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in figure 2 below. Custodians are too many to represent individually. Thus the replies of custodians from the AMI-SeCo community participating in the monitoring are presented on an aggregated basis per market and assigned a percentage representing their compliance status.

3 Progress against the milestones

This section tracks market stakeholders progress in implementing the Standards against the 13 set milestones identified by AMI-SeCo.

The milestones facilitate consistent implementation across markets (given the long-term efforts that are needed) and avoids issues remaining undetected until the deadline of 20 November 2023 to achieve compliance and implementation of the standards.

Table 2
Milestones identified by AMI-SeCo

The current H1 2022 monitoring exercise focuses on milestones 1 to 6 given that Milestone 6 (with a deadline of 1 January 2022) was meant to have been achieved by the time the survey closed.

In each survey round, all the entities are asked to confirm (on a yes/no basis) whether the milestones will be met by the set milestones dates. If it is not the case, they are also asked the expected date for when the milestone will be reached.

For the milestones which had to be achieved by the time the survey closed: the blue colour code is assigned to those milestones that have been successfully achieved.

Milestones that will only be achieved later than their set deadline are assigned a yellow status with indication of the likely date of achievement.

For the milestones that are only due to be achieved after the current reporting cycle: the green colour code indicates that the entity anticipates achieving that future milestone on time. A yellow status indicates that the milestone is foreseen to be met later than the set milestone date. In this case, the date of achievement anticipated is also indicated in the table.

Table 3
Expectation of achieving the milestones at the set dates

Milestone 8 July 2022	Yes	01/25
Milestone 9 December 2022	10/23	01/25
Milestone 10 March 2023	10/23	01/25
Milestone 11 April 2023	10/23	Yes
Milestone 12 October 2023	11/23	01/25
Milestone 13 November 2023	Yes	01/25

4 Concluding remarks

Both responding TPAs have reached the first two implementation milestones. BNY Mellon has not yet finalised its analysis (to be expected by November 2022) and is therefore facing delays in several (future) milestones. Nevertheless, all standards should be implemented by November 2023. Euroclear Bank expressed its intention to offer Triparty Collateral Management services under the Single Triparty Collateral Management model once it has migrated to T2S. It is therefore not expected to be fully compliant with the ISO 20022 messages by November 2023.
