

Corporate Actions Adaptation Plan

Euronext Securities Porto

Activity	Corporate Actions
Plan submitted by	Euronext Securities Porto
NSG	Portugal
Date	October 2022

Background

The Adaptation Plan provides information on the changes which will be implemented to meet the SCoRE Standards for Corporate Actions which form part of the Single Collateral Management Rulebook for Europe (SCoRE). Full details of the Corporate Actions Standards can be found on the [ECB website](#).

The document is structured as follows: Section 1 (Cover Letter) provides a high-level summary of the changes in order to implement the SCoRE Standards. Section 2 (Adaptation Plan Table) then provides a more detailed overview per Standard covering a feasibility assessment and the implementation milestones.

1 Cover Letter

Regarding Corporate Actions there are some adaptations required, namely:

- Standard 1 (Harmonised business process and workflows per CA event - implementation of ISO 20022 messages; implementation of Movement Preliminary Advice/Cancellation and CA Event Processing Status Advice; implementation of Reversals);
- Standard 2 (Provision of data necessary for calculation of proceeds for the CA events currently not available for the CA events to be implemented);
- Standard 3 (Consistency of information provided by Issuer CSDs, Investor CSDs & Custodians for the CA events currently not available for the CA events to be implemented);
- Standard 4 (Rounding rules for cash payments);
- Standard 8 (Cash and security movements must be executed simultaneously, using the T2S night-time settlement (NTS) functionality);
- Standard 9 (Notification of processing status);

- Standard 10 (BIDS and EXOF to be implemented);
- Standard 11 (Availability of default options, if necessary, for the corporate actions with options not yet implemented - BIDS and EXOF);
- Standard 13 (Reversal of CA movements);
- Standard 15 (ISO 20022 messages for corporate actions).

With reference to non-debt securities, it should be noted that the related Milestones Table included in the document, aiming by November 2025 for implementation, is still in its preliminary phase and subject to further review and refinement in the next months.

The Milestones Table for non-debt securities should also be considered for the other standards when applicable to non-debt securities.

Rounding rule no. 1	For cash payments, the cash amount to be paid is to be rounded down to the number of decimals permissible in the payment currency (i.e. to 2 decimals in case of EUR payments).Accordingly, and as an example, a cash amount of EUR 2.556 should be rounded down to EUR 2.55	Adaptation Required	For cash payments, the amount to be paid needs to be rounded down to the number of decimals permissible in the currency, in case the next decimal number is below 5.	N/A																																																																		
Additional Information Rounding rule no. 2	For securities movements, the securities amount should be rounded down to the nearest full unit ¹ . The Minimum Settlement Unit (MSU) ² of the security shall determine whether the nearest full unit is a whole number (for example 1) or another number ³ (for example 1.1).	Implemented																																																																				

¹ For equities, the rounding-down applies on (I)CSD level for the total position held for one (I)CSD participant and not per share. Accordingly, an entitlement to receive 9.33 shares would be rounded down to 9 i.e. the nearest whole number.

² The MSU should be determined in accordance with the guidance contained in question 4.2 of the T2S Corporate Actions Standards [FAQ](#).

³ Investment fund units may contain up to 6 decimals.

Rounding rule no. 3	For the calculation of cash payment amounts or securities movement amounts relating to a specific securities account, the ratio applicable to the entire issue should be applied to the total holding in the parent ISIN on the securities account. (There should be no intermediate step whereby a ratio per 1,000 nominal is calculated, and then applied).	Implemented																																																																			
Rounding rule no. 4	The ratio specified by the Issuer CSD in the event notification should be passed on in its entirety in the event notification sent by all Account Servicers and Custodians in the custody chain. (There should be no rounding up, or rounding down, or truncation, of the ratio).	Implemented																																																																			
5	Negative cash flows <i>Issuer CSDs and Investor CSDs shall support the processing of corporate actions where the underlying security has a fixed negative interest rate or a floating rate coupon. Any negative interest shall result in a cashflow from the Investor to the Issuer which shall be processed using the Interest Payment (INTR) event.</i>	N/A	Euronext Securities Porto accepts only securities with a positive interest rate, or with a floating rate coupon with a floor of zero or above (fixed in the terms and conditions of the security), so that negative cash payments do not occur. Issuer or Issuer agents must consider the standard in the terms and conditions of the securities.		<table border="1"> <thead> <tr> <th data-bbox="1357 576 1899 616">Analysis and Communication</th> <th Securities with a fixed negative interest rate, or with a floating interest rate, may result in a payment from the Investor to the Issuer of the security. The Standard is applicable to CSDs acting in their role as both Issuer CSD and Investor CSD. If a CSD accepts only securities with a positive interest rate, or with a floating rate coupon with a floor of zero or above (fixed in the terms and conditions of the security), so that negative cash payments do not occur, then the CSD is deemed to comply with this standard.

6 **Business day rule** *If the payment date of a corporate action falls on a non-business day (in the country of the currency in which the payment is due), the payment shall be made on the next business day. If the next business day falls in the following month and the payment needs to be made in the same month, then the calculation period shall be adjusted, and the payment date and the record date shall move back one day.*

Payment amounts are always calculated on the end-of-day positions on the record date. If the payment date falls on a non-business day in the country of the currency in which the payment is due, the payment must be made on the next business day. If the next business day would fall in the following month, and the payment needs to be made in the same month (with the payment day being moved to precede the original payment date) then the Modified Following (Adjusted) Business Day Convention must be used.

Implemented

Payment amounts are always calculated on the end-of-day positions on the record date, compliant with the business day conventions

In order to comply with this rule, one of the following business day conventions should be used at the time of issuance of the security:

Business Day Convention	Calculation Period	Post-Trade Process
Following	Adjusted	Pay the next business day
Following	Unadjusted	Pay the next business day

	Modified Following	Adjusted	Pay the previous business day

A holder of a security may be entitled to receive a fee following the announcement of a meeting fee. This fee may be paid to all holders of the security or alternatively only to certain holders of the security fulfilling certain criteria. The different constellation of options which may lead to the payment of a meeting fee are outlined below:

A bond/shareholder has to instruct (a certain option until a certain deadline) in order to receive the payment.

A bond/shareholder has to instruct early (a certain option until a certain deadline) in order to obtain an early incentive premium. The bond/shareholder then receives the rate announced in the early incentive premium field.

All bond/shareholders receive the fee without having to participate/instruct at the meeting – the rule is as follows: everyone who has a holding as of a certain date (record date) will receive the fee.

In addition to the above use cases, the event may also include a condition that resolutions have to pass at the meeting in order to receive a fee.

Reversal of CA movements

A pre-advice message must be issued in advance of any reversal of a CA. In case of a cash reversal, the pre-advice must be sent sufficiently in advance of the reversal so that recipients have adequate time for cash management.

13

Adaptation Required

Pre-advice messages needs to be implemented
