The majority of the reporting entities responded to the survey and revealed a high level of compliance.

This section presents the key findings of the survey for each entity type.

CSD – Interbolsa

Interbolsa implementation is on track

Interbolsa is fully compliant with 11% of the standards already implemented (14% if not applicable it is not considered) and 35% of the standards are already in the stage of ongoing analysis.

Interbolsa reported a delay in milestones 2 and 3, but it is expected that the implementation date of November 2023 will be met.

Custodians

Portuguese custodians already have a significant percentage of standards implemented

Portuguese custodians have already implemented a significant percentage of standards (31%). The analysis has started for another 15% of the standards and for 2% the implementation has started.

Issuers

48% of the Issuers answers confirm awareness of obligation

Almost half of the answers confirm awareness of obligation from the issuers.

For the time being, only one standard (1F: Meeting Notification) needs to be highlighted with low compliance.

Nevertheless, looking to the Issuer Association answers (representing the main Portuguese issuers) we have only 24% of awareness of obligation.

NCB

Banco de Portugal is on track to implement the AMI-SeCo Standards for Corporate Actions for its collateral management activities by November 2023.

SCoREBOARD

CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in Box 1¹. Custodians and Issuers are monitored on an aggregated basis and assigned a percentage compliance status.

Box 1

Notes:

- For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in Box 1 above.
- TPAs are using custody services provided by CSDs or Custodians in order to disseminate CA information to Collateral Givers and Collateral Takers. Monitoring of TPAs thus focuses on the implementation of triparty specific workflows described in Standard 1.
- For custodians the % indicates that the standard has either already been implemented, or that implementation is on track i.e. at a minimum that analysis has already started or that implementation has started per Standard.
- Issuers were asked to confirm awareness of their obligation to provide all relevant information to the Issuer CSD (on a Yes/No basis). The % reflects the number of issuers who responded yes to the survey
- Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.

Milestones expected to be achieved in the current reporting period are highlighted in blue in the header of Table B below. The blue colour-code is then assigned to those milestones which have been successfully achieved to date for each respective entity. Milestones which will only be achieved later are assigned a yellow status, while milestones which will only be achieved with significant delays / where work has not yet commenced are marked in red.

For the remaining milestones (i.e. milestones due to be achieved only after the current reporting cycle) the colour-code indicates an entity's expected ability to achieve a future milestone on time. The expected date of achievement is also indicated in the table if it is different to the milestone date defined by AMI-SeCo.
